

- Remote HandWheel WiFi or CABLE
- Lithium battery
- Spiral Cable 8 Mt
- Display 4 Rows 20 Char
- Show Axes Values
- Show Machine Alarms
- Feed Axes Override
- Management up to 6 Axes
- Axis JOG from Button or from Handwheel
- Start-Stop-Pause
- 4 Customized Functions by Key

WHC is a Remote WiFi HandWheel with Built-in Battery or with spiral cable of 8 Mt.

JOG Button, JOG by HandWheel, START, STOP, PAUSE, AXIS SELECTION, are already pre-set functions.

Four **F1-F2-F3-F4** keys can be programmed in IsoUs Environment for custom functions (eg Homing Machines, Utility Management). A potentiometric override allows immediate and accurate control of Axis **FEED**. The battery lasts for more than a day with medium usage. The battery charger is built-in and you only need to connect it to the supplied 220 Vac adapter.
